## ExpressJet Unnecessary Assignments

Sisters & Brothers,

As we know there have been a substantial amount of cancellations and crew scheduling has had to modify almost all trips. We have seen several trips in recent days with unnecessary flying, such as deadheading one way and having an XJT flight attendant deadheading on the way back. We have already addressed this with the Company but want to remain vigilant. If you see these unnecessary assignments, please contact crew scheduling and your grievance representatives.

Please continue to stay safe and healthy.

In solidarity,
